This course with Rachel and Claire allowed me at age 77 with 6 adult children and 15 grandchildren to rejoice in our GIFTS!!

Diverse Family with so much to share with each other and those in our various communities.

Personally I have the power of discovering with my family and we have a new opening for sharing our experiences as gifts to each other!

We have brought fun and laughter through allowing for diversity. There is a new unity in our family with openness of sharing our uniquenesses.

This course is life altering!!

This course has life-altering value. I am 72. My marriage improved. My relationship with myself improved. Before learning Davis Methods, I hated myself. I was tired of life. I wanted to die. I stayed alive out of duty and obligation.

I did not realize that disorientation was a beautiful space of creativity and imagination - when used consciously, at appropriate times.

Now I am learning to move seamlessly back and forth between oriented and disoriented states, at will, for specific purposes. I am loving life. I give myself permission to be disoriented, creative, and a brilliant writer. And then I come back and give myself permission to be a focused, brilliant, analytical person, who can put together complex tax & banking documents.

I do NOT give myself permission to hate myself.

The internal war is over.
